Immunization Update for the Clinician

The Montreal Children's Hospital (McGill University Health Centre) is pleased to offer the fifth edition of **Immunization Update for the Clinician: From Infants to Elderly** - a one-day course designed to update family physicians, pediatricians, residents, nurses and other allied health professionals on the ever-changing world of recommended immunizations.

With an emphasis on the **practical application** of knowledge and **specific management guidelines**, six specialists will share their knowledge and provide **ample opportunity for questions and discussion**.

Course Objectives

At the end of the day, participants will be able to:

- Identify risk factors for influenza at different ages;
- Be aware of the different vaccines to optimize shingles prevention;
- Identify and protect the adults most at risk for invasive pneumococcal disease;
- Identify and protect the children most at risk for invasive meningococcal disease;
- Develop an approach to the prevention of traveller's diarrhea;
- Assess the risk of HPV disease and optimize protection with the vaccines;
- Be aware of the new changes in the Québec Immunization Schedule.
